CONTENTS

RESEARCH ARTICLES
Evaluation of online learning process of intern dental students during the Covid-19 pandemic period: A survey
Gaye KESER, Filiz NAMDAK PEKINER ................................................................. 1

Evaluation of mandibular molar tooth region morphology with cone-beam computed tomography to guide dental implant planning: A retrospective radioanatomical study
Sevda KURT BAYRAKDA, Elif BILGIR ................................................................. 5

Evaluation of the shear bond strength of fissure sealant materials containing bioactive compounds
Zeynep Ekin KILINC, Fevzi KAVRIK, Ebru KUCUKYILMAZ ........................................... 11

Evaluation of a group of Turkish family physicians’ attitudes and approaches about early childhood caries
Elif KARDEŞ, Fatma SARAC, Peris ÇELIKEL, Sera SIMSEK DERELIOĞLU, Özgür DEMIR CINISLI ................................................................. 17

The effect of tooth brushing on surface roughness in different restorative materials used in pediatric dentistry
Berna ERTÜRK, Ebru HAZAR BODRUMLU ............................................................. 23

Effect of dental caries on dental age and development in adolescents between 12-15 years
Berkant SEZER, Burak ÇARKICIIOĞLU ................................................................. 29

Cytotoxicity of resin modified glass ionomer cements on dental pulp stem cells
Şeyma KESKIN, Fatih ŞENGÜL ........................................................................... 34

The effect of different surface decontamination procedures on bond strength values of CAD/CAM restoratives
Elif İlgi SANCAK, Neslihan TEKÇE ........................................................................ 38

Analysis of bristle end morphology of different toothbrushes by stereo microscope - in vitro study
Gül YILDIZ TELATAR, M. Gamze ATICI BEDİR, Fatih BEDİR ................................... 44

Comparative evaluation of cyclic fatigue resistance of three different nickel-titanium rotary instruments at body temperature
Zeliha ÖZTÜRK, Seyda ERŞAHAN, Yelda Erdem HEPSENOĞLU, Didem Ekiz, Can TOPKARA ................................................................. 49

Effect of alexidine dihydrochloride on the bond strength of resin-based sealer to dentin
Emine ODABASI TEZER, Meltem DARTAR ÖZTAN ................................................ 53

Evaluation of pain felt by patients during orthodontic diagnostic material collection and direct bonding procedures
Saadet CINARSOY CİGERIM, Ahmet KARAMAN .................................................. 58

Comparison of tmj morphology in orthodontic malocclusions using cone-beam computed tomography
Mert OCAG, Mehmet Eray KOLSUZ ..................................................................... 63

The effects of different vertical growth on facial morphology in class II cases
Barçın EROZ DILAYER, Seyma GUNDOGU, Ali KIKI ............................................. 67

Effect of Covid 19 pandemic on Recep Tayyip Erdogan University Dentistry Faculty students
Zeynep YESIL DUYMUS, Bahriye Bahar TUFKCI .................................................... 71

Effect of povidone iodine at different concentrations on the color stability of hybrid CAD/CAM material
Gaye SAĞLAM ......................................................................................................... 73

Evaluation of clinical success of prefabricated metal post-core restorations: 5 year retrospective study
Elif KABACIOĞLU, Ceren KUCUK, Rifat GOZNELI ................................................. 80

Soft to hard tissue ratios after bimaxillary orthognathic surgery in class III patients
Kevser KURT DEMIRSOY, Gökmen KURT ........................................................... 85
REVIEWS
Identification and gender determination in forensic dentistry
Hazal KARSLIOĞLU, Mesude CITIR ......................................................................................................................... 92

Ozone therapy in dentistry
Merve SARI .................................................................................................................................................................. 100

The effect of psychotrop drugs in bruxism ethiology and treatment: An overview of bruxism in the light of information
Özkan MILOĞLU, Ahmet Berhan YILMAZ, Mustafa Taha GÜLLER, Betül SUBAŞI AKSAKAL ........................................ 108

Resin matrix ceramics-an overview
Elif Melike AKARCA, Dilara SAHİN, Ragibe Şenay CANA ......................................................................................... 114

CASE REPORTS
Fused teeth that are maxillary central incisor with supernumerary and its dental treatment
Sena KAŞIKÇI, Emre BODRUMLU ......................................................................................................................... 119

Surgical treatment of an extraoral fistula developing due to the left maxillary first molar tooth of which endodontic treatment was performed and infection could not be eliminated
Buşra KOÇ, Büşra Melda KENGEL, Esra MAVİ ........................................................................................................ 124

2-Year follow-up of bilateral immediate autotransplantation
Ferhat AYRANCI, Hasan AKPINAR ...................................................................................................................... 128
